SUMMARY

Data Scientist with 9 months of experience in developing, training, evaluating, and deploying machine learning models for real-world business problems. Skilled in Python, SQL, Machine Learning, Data Analysis, Feature Engineering, Model Deployment, and MLOps fundamentals. Experienced in end-to-end ML pipelines including data preprocessing, feature engineering, model selection, hyperparameter tuning, deployment, and performance monitoring. Passionate about leveraging AI and Machine Learning to build scalable, data-driven solutions.

SKILLS

Programming Languages Python, SQL

DataBase MySQL

Machine Learning Supervised Learning, Feature Engineering, Model Evaluation

Libraries Numpy, Pandas, Scikit-learn

Deep Learning Neural Networks, Pytorch

Data Visualization Tools Tableau, PowerBI

Tools Jupyter Notebook, Git, Github

Cloud & Deployment AWS, Fast API, Model Deployment Pipelines

PROFESSIONAL EXPERIENCE

Data Scientist - Rubixe (AI and Automation Solutions)

- Developed and trained machine learning models for classification, regression, and predictive analytics use cases.
- Performed extensive data cleaning, preprocessing, feature engineering, and exploratory data analysis on structured datasets.
- Improved model performance through feature selection and hyperparameter tuning techniques.
- Built end-to-end machine learning pipelines from data ingestion to deployment.
- Analyzed business datasets to uncover actionable insights and support decision-making.
- Designed and implemented evaluation frameworks using Accuracy, Precision, Recall, F1 Score, ROC-AUC, and RMSE metrics.
- Improved prediction accuracy through feature engineering and model tuning strategies.

PROJECTS

Credit Risk Prediction using Machine Learning | Classification Model

- Developed an end-to-end Credit Risk Prediction model using Python, Pandas, Scikit-learn, LightGBM, and SMOTE by integrating customer demographics, account, and enquiry datasets to identify potential loan defaulters.
- Performed data preprocessing, feature engineering, imbalance handling (SMOTE), model evaluation, and hyperparameter tuning, achieving a **ROC-AUC of 0.64+ (Gini Score: 27+)** and improving credit risk classification performance.
- **Technologies** : Python, Pandas, NumPy, Scikit-learn, LightGBM, XGBoost, SMOTE, Matplotlib, Seaborn, Jupyter Notebook

AI-Based House Price Prediction System | Regression Model

- Developed an end-to-end machine learning pipeline to predict residential property prices using 79+ housing features, performing advanced data preprocessing, feature engineering, exploratory data analysis, and regression modeling to improve prediction accuracy.
- Built and benchmarked multiple models including Random Forest, Gradient Boosting, and XGBoost, leveraging RMSE and R² evaluation metrics, feature importance analysis, and a deployment-ready FastAPI inference pipeline for real-time property valuation.
- **Technologies**: Python, Scikit-learn, XGBoost, Pandas, NumPy, FastAPI

AI-Powered Rice Leaf Disease Detection System | CNN Model

- Developed a deep learning-based computer vision system to classify major rice leaf diseases (Leaf Smut, Brown Spot, and Bacterial Leaf Blight) using image preprocessing, data augmentation, and CNN-based image classification techniques for early disease identification.
- Implemented and benchmarked transfer learning models including MobileNetV2 and ResNet50, improving classification performance through image augmentation, model evaluation, confusion matrix analysis, and deployment-ready inference workflows.
- **Technologies**: Python, TensorFlow, Keras, OpenCV, NumPy, Matplotlib

EDUCATION

B.Tech in Electronics & Communication Engineering, N.B.K.R INSTITUTE OF SCIENCE AND TECHNOLOGY (GPA: 8.05)

Intermediate in MPC, Sri Vema junior college (GPA: 9.52)

SSC, Audisankara E.M School (GPA: 10)

'19 — '21

'18 — '19

CERTIFICATIONS

Machine Learning with Python, RINEX Technologies

Certified DataScientist, Datamites

DataScientist, IABAC

Aug '24

Nov '25

SOFT SKILLS

Good communication skills

Critical thinking

Ability to Collaborate / Teamwork
